

Massachusetts in 1834, James McNeill Whistler spent most of his adult life in England and France in an era when an American artist in Europe was something of a rarity. He specialized in landscapes and portraits and his etchings are highly regarded. Witty, cranky and a bit of a devil, Whistler was a gadabout in British society. He had a running feud with playwright Oscar Wilde, each of them trying to outwit the other with cutting remarks. His *Arrangement in Grey and Black: Portrait of the Painter's Mother* is more famously known as *Whistler's Mother*. (1871)
